Drawings objected to, in new fig. 1 wavy lines objected to, also pcb CI should be sectioned; larger scale suggested. Also note that spec. page 3, lines 6-9 includes features 2, 3, 4 present in original fig. 1 but not in new fig. 1. These items can be added to new fig. 1 in a schematic manner (since not recited in claims) or original fig. 1 added as a new fig. 3. Formal drawings required in response.

Substitute spec. (8-25-03) has been damaged.

Applicant is asked to supply replacement spec with all amendments included or at least to supply replacement copies of the subst. Spec and of the 1-12 -04 amendments to the spec.

Abstract, line 5 "which allows --- to be removed" is unclear and not supported by spec. The partition 10 seems to block fluid not allow its removal. The paragraph 0028 is similarly unclear.

The abstract could be amended to recite "the brass insert (6) having a tab to be electrically connected by solder (19) to a printed circuit card (CI) in the housing. The over over-molding includes an opening to receive a portion of the radiator (7) --- since these are basic to the invention.

Objections to disclosure with respect to brass inset 6 and overmolding 10 features are withdrawn is these items and their relationship are clearly shown in new fig. 1.

Claims 1-3, 5-18 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
